**Installation of Built-in Oven**

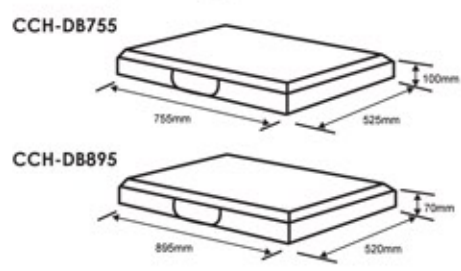

- In order to ensure that the built-in appliance functions properly, the cabinet containing it must be appropriate. The figures above give the dimensions of the cut-out for installation under the counter and in a wall cabinet unit.
- The above dimensions apply to all Cornell Built-in Oven models.

**Installation of Chimney Hood**

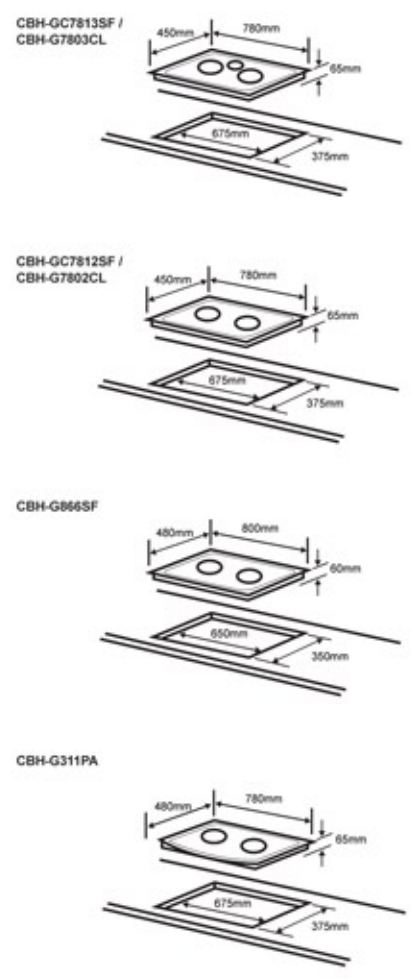

CMH-PE43SP / CMH-PC96G / CMH-PC488G

- Minimum hood distance above cooktop must not be less than 650mm.
- A maximum of 750mm above the cooktop is highly recommended for best capture of cooking impurities.
- Distance over 750mm above the cooktop is at the installer's and user's discretion - providing that ceiling height and flue length permit.

**Built-in Hob Size**

\* It is advisable to use actual product for measurement prior to installation.
